

**Are you  
developing  
websites and  
software that  
serve academic  
communities?**

**Do you wish  
you could  
connect with &  
learn from  
others doing the  
same thing?**

# We can help for free.

**The Science Gateways Community Institute (SGCI)** supports all aspects of creating and sustaining gateways. We can help you:

- \_ Get going with a gateway
- \_ Build gateways or add features
- \_ Solve your unique questions
- \_ Promote your gateway or software
- \_ Connect with our learning community

You **make the science happen**. We are funded by the NSF to help optimize your development process. You'll have a gateway that's more economical, scalable, and sustainable.

## WHAT'S A GATEWAY?

Gateways offer Web-based access to **shared resources**, including data, software, computing services, instruments, and educational materials.

## WE CALL THEM GATEWAYS

**but SGCI also can help you build or enhance your**

# How can we help you? Here's some of what we offer:

## SUPPORT FOR BUILDING & RUNNING GATEWAYS

### Hands-on Software Developers

Building or enhancing your gateway

### Specialized Expertise

Usability & graphic design, cybersecurity, business & sustainability planning, and user engagement

### Hosting

Free service allowing you to get started and test frameworks with minimal fuss

## COMMUNITY RESOURCES & NETWORKING

### Gateway and Software Catalog

A growing collection of gateways and software that's searchable and browsable

### Annual Gateways Conference Series

Gateway developers and enthusiasts connecting and learning from each other

### Community Forum

A place to post questions and relevant information

### Searchable Online Resources

Publications, case studies, and learning materials

## EDUCATION & TRAINING

### Gateway Focus Week

Borrowing concepts from entrepreneurship, an intensive, week-long workshop for teams to learn how to effectively build and sustain gateways

### Webinars

A rotating selection of topics of interest

### Student Programs

Opportunities for students and faculty through workshops and internships, with a focus on advancing underrepresented groups and minority-serving institutions
