

QGreenland

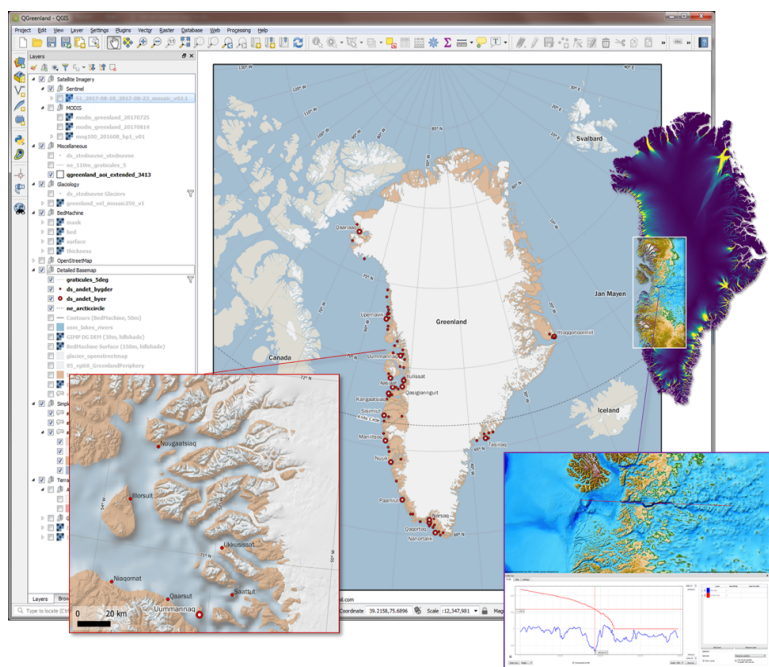

www.QGreenland.org

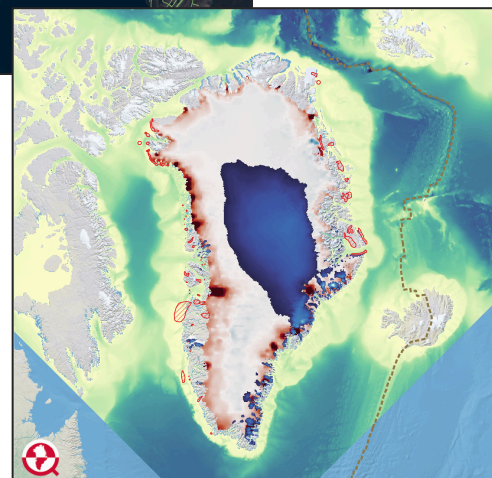

EARTH CUBE

- A **free geospatial tool** using QGIS to support interdisciplinary Greenland-focused research, teaching, decision making, and collaboration.
- Combines key datasets into a **unified, all-in-one GIS analysis and visualization environment for offline and online use.**

An interdisciplinary environment...

...with local detail and island-wide data.

QGreenland is a community tool created with community input.

- **Explore** QGreenland beta now, with v1.0 in 2021.
- **Signup** for the quarterly newsletter or **use** upcoming education materials.
- **Contact us** with ideas at QGreenland.Info@gmail.com
- **Share** QGreenland with your community!
