

BOARD ON DATA STEWARDSHIP

Open Science and Data Help Desk at the AMS 2023 Annual meeting

Do you have data and software-related questions? Are you looking to make your data and/or software open and FAIR? Are you interested in tools and resources for working with your data or for finding data to reuse? The Open Science & Data Help Desk is here for you!

The [Open Science & Data Help Desk](#), which is a program of the [Earth Science Information Partners \(ESIP\)](#) and the American Meteorological Society (AMS), provides researchers with opportunities to engage with informatics experts in their domains. Through the Help Desk, researchers can learn about skills and techniques that will help further their research and make their data and software more open and FAIR. The Open Science & Data Help Desk will be staffed with experts from the Earth science informatics community to answer open science, software and data-related questions and to demo useful resources virtually, and in person in the exhibit hall at the [AMS booth \(booth 523\)](#).

When: Jan 9-12, 2023 during #AMS2023

Where:

- In person in the exhibit hall at the [AMS booth \(booth 523\)](#)
- Online. Follow the #DataHelpDesk on Twitter [here](#). Learn more: <https://www.esipfed.org/data-help-desk-at-ams-2023>.

During the Data Help Desk, YOU can:

- **Ask Open Science and Data Questions:** Stop by the in-person Help Desk [\(AMS booth 523\)](#), share your questions any time during the event via Twitter using the hashtag #DataHelpDesk, or submit your question via the form [HERE](#). Our team of Earth science data professionals has decades of experience in informatics and in many scientific domains and specializes in topics like finding, sharing, analyzing, publishing, and citing data and software.
- **Watch Tool Demos & Tutorials:** We will direct you to helpful tutorials and demos throughout the week that will highlight tools and resources you can use to manage your data and enhance your research. Follow #DataHelpDesk to hear about these!
